Spa & Hot tub Maintenance Dosing Chart Pristine Blue®

My Spa/Hot tub has _____ gallons

After testing top up PristineBlue according to chart:

Add _____ ml Pristine Clean per week (5 ml per 100 gallons)

Add _____ ml Pristine Power per use per 100 gallons (5 ml per 100 gallons)

Add _____ ml Pristine Extra per month per 100 gallons (5 ml per 100 gallons)

Gallons of Spa Water

PB Level	150	200	300	400	500	700
0.1 ppm	10	10	15	18	24	36
0.2	6	10	12	18	21	30
0.3	6	10	12	15	18	27
0.4	6	6	10	12	15	21
0.5	3	6	6	10	12	15
0.6	3	3	6	6	10	12
0.7	3	3	3	3	6	10
0.8	0	0	3	3	3	3
0.9	0	0	0	0	0	0

Milliliters of PristineBlue® to add

About every 3 months, change the water following the instructions to Purge, Drain & Refill before starting again.

Test the water weekly checking levels of PristineBlue, pH & Total Alkalinity.

Total Alkalinity should only have to be adjusted once every time the water is changed, maintaining a level of 75 – 90 ppm.

Track your pH maintaining a level of 7.4 – 7.6

When adding chemicals using the PristineBlue measuring cup, add Dry Chemicals first. Rinse the cup then add Liquids.
